

Movie Munchers

Group 1 - Janelle Correia, Aadya Maurya, Jacob Philips, Aarya Rajaju, Galav Sharma

Tired of inflated prices and long lines? Ditch the concession stand.
MovieMunchers partners with theaters to deliver the food you love *right to your seat*, and at a *fraction of the cost*.

Snacks are an integral part of the movie experience, but they may be expensive. MovieMunchers service allows theaters to bring the food to you. By contracting them to bring the food you order to your seat, MovieMunchers allows you to pay the movie theater to bring outside food directly to your seat. The app makes getting your food into a movie theater without breaking the rules easy! With our at-counter interface, we improve the theater experience.

System Screen Snap (User View)

Project Milestones

- 1. Scalable API Development:** Enables robust order management and vendor coordination
- 2. Responsive UI :** Provides custom interfaces for customers, staff, and management
- 3. Seamless Ordering:** A user-friendly app for customers to browse, order and track food
- 4. Easy Payments:** Integrated and secure payment processing for a smooth checkout.
- 5. QR-code Delivery:** A QR-code system for the staff to verify and deliver to seat.
- 6. Pre-Order & Schedule Delivery:** Schedule your meal to arrive just as the movie starts.
- 7. Personalized Recommendations:** Suggests your next personalized movie meal.
- 8. Cinema-Friendly Mode:** Features like screen dimming and silent notifications to not disturb the movie

How it Works

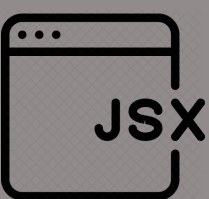

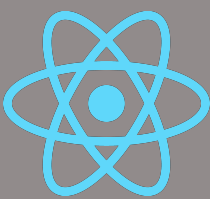

- 1. Order:** The moviegoer orders food from a local restaurant through the MovieMunchers app.
- 2. Prepare & Deliver:** MovieMunchers coordinates with the restaurant and delivers to the theater.
- 3. Check-In:** Theater staff receive the order on their interface and check it in.
- 4. Deliver to Seat:** Staff deliver the food directly to the customer's seat at the scheduled time.

Stakeholders

- **Moviegoers**
Cheap, in-seat snacks!
- **Movie Theatres (Management, Staff, Admin, Owners)**
Boost concession revenue!
- **Concession Staff/Delivery Runners**
Efficient snack delivery/order handling!
- **App Developers/Company**
Clear market (quick, cheap snacks) & profit!
